University for Peace established by the United Nations

12 February 2025

The European Center for Peace and Development University for Peace established by the United Nations (ECPD) - Regional Mediterranean Institute for International Postgraduate Studies and Development Research, in the framework of the ECPD International Program of Transfer of Knowledge System, in cooperation with the **University of Berlin (Germany), Long Island University (USA), VAMK University (Finland), Istituto Superiore di Sanità (Italy), University of Applied Sciences Niederrhein, Germany and South-Eastern Europe Health Network (SEEHN)**, organizes

**XXX ECPD INTERNATIONAL SUMMER SCHOOL
MANAGEMENT OF HEALTHCARE INSTITUTIONS**
with the main topic

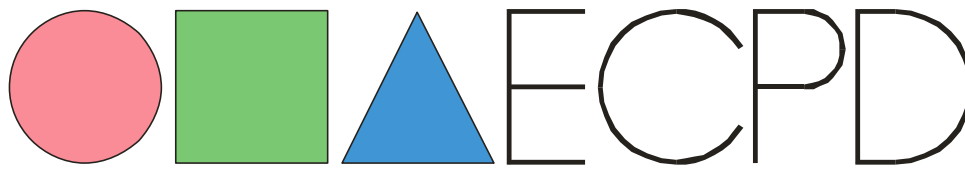

**PROFESSIONAL MANAGEMENT – THE KEY TO
SUSTAINABILITY OF HEALTHCARE**

(Hotel “Splendid“ – Budva, 18 - 21 June 2025)

We have the pleasure to invite you to take part in the work of the **30th ECPD International Summer School of Management of Health Care Institutions** (hereinafter: School), devoted to a highly topical issue: **Professional Management – the Key to Sustainability of Healthcare**. This year's ECPD International Summer School continues with current topics in the field of health management and extends the tradition of gathering health managers and other decision makers in health care systems from the region of South-East and Central Europe.

Significant changes in the field of medical science and technology in general, as well as the new models of management of that knowledge and systems, require shifts in healthcare practice from the previous inert models to dynamic, applicable models of practical health preservation, better treatment outcomes, and the greater satisfaction of patients.

One of the goals of this year's School is to analyze the inertness of the current management models of both preclinical and clinical practice, from the aspect of system solutions, and to look at the opportunities provided by the development and implementation of digital technology in healthcare, artificial intelligence, genetic

engineering and molecular biology, as well as personalized pharmacology, and to see through their own innovative and creative models the possibilities of implementing changes at the level of micro and macro systems.

Changed or newly created standards remain as a necessary helper along the way, which, when accepted and implemented, facilitate the management of units and systems, and give the desired result. Accordingly, one of the leading topics of the Program will be the topic of health standards and accreditation, as well as their indirect impact on health insurance and the cost of health care.

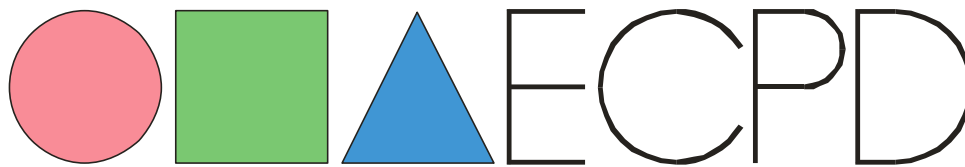

Co-Directors of this year's Summer School are **Prof. Dr. Klaus-Dirk Henke**, Department of Health Economics and Health Management, University of Berlin, **Prof. Dr. Tina Bregant**, Angela Boškin Faculty of Health Care, former State Secretary at the Ministry of Health of Slovenia, **Prof. Dr. Lisbeth Fagerström**, Rector of Åbo Academy University in Vaasa, Finland, **Prof. Dr. Luca Rosi**, Istituto Superiore di Sanità, Italy, **Prof. Dr. Farhang Tahzib**, Director of Public Health & Wellbeing, West Sussex Primary Care Trust, England and **Prof. Dr. Miodrag Ivanović**, long-standing Professor at several Universities in Great Britain and Professor of the ECPD UN University for Peace.

Program

The main topics of the School include the following:

- (i) **Contemporary health systems - standards, accreditation, transformation and expectations**
- (ii) **Necessity of continuous transformation of health systems in order to sustain the quality of health care**
- (iii) **Emergency response and risk management in health care**
- (iv) **The future of healthcare after the crisis - Efficiency as an imperative in healthcare**
- (v) **Existing and new ways of financing health care**
- (vi) **Basis of policy for the determination of a package of health services**
- (vii) **Health insurance and accreditation**
- (viii) **New reality of health policy**
- (ix) **Innovative micro-level medical practice programs**
- (x) **Digital transformation of the health sector**
- (xi) **Integration of e-Health software with existing local information systems**
- (xii) **Healthcare leadership models - practical aspects and contemporary concepts, and other actual topics.**

As part of the school Program, thematic **Workshops** will be organized, focused on the analysis of comparative experiences of countries in the region in dealing with certain current issues.

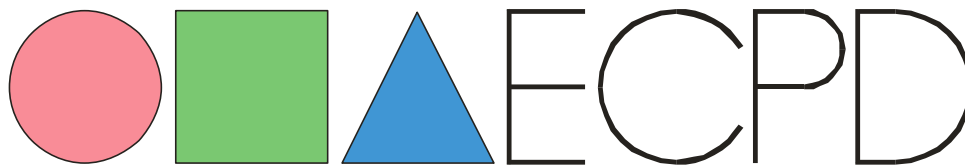

Lecturers

- **Prof. Dr. Klaus-Dirk Henke**, Department of Health Economics and Health Management, University of Berlin, Germany
- **Prof. Dr. Lisbeth Fagerström**, Rector of Åbo Academy University in Vaasa, Finland
- **Prof. Dr. Thomas Lux**, University of Applied Sciences Niederrhein, Germany
- **Prof. Dr. Luca Rosi**, Head of the International Affairs at the Istituto Superiore di Sanità, Italy
- **Prof. Dr. Miodrag Todorović**, CEO of "Panafricare" Clinic and long-standing Director of the Seychelles Ministry of Health
